experiencing isolation or depression at some level during COVID. The proposal is to invite different faith based religious leaders on a zoom panel to share with the community what their centers have offered to the community and the role they have played. The proposed length of the program is one and a half hours. With one hour for the panelists to share their input and half hour to solicit queries from the audience. Speakers would be inclusive and follow all guidelines as dictated by the City of Los Angeles for faith-based support programs put on by the city. **Speakers** would come from different traditions located in Canoga Park. **Budget** for the following: 1. Speakers Honorarium - \$150 to \$250 each (x4), 2. Flyers - \$100, 3. Marketing and Publicity - \$500. Proposed by CPNC Faith-Based Rep, Nauman Khan.

- c. Discussion and/or possible action to approve \$500 for Pet Adoption Fund in Canoga Park for the purchase of blankets and food to comfort animals hoping to find forever homes. As COVID-19 lingers, pets are not being adopted at the usual rate causing extra strain on shelters and the companion animals they house. Proposed by Elmer Garcia
- d. Discussion and/or possible action to approve up to \$1200 for 40 backpacks and supplies at \$30 each for students who need them at Canoga Park Elementary and Hart Street Elementary. Proposed by School Rep, Elmer Garcia

Dr. Thema Bryant Davis introduced our guest Dr. Miguel Gallardo for his presentation on "Enhancing Equity and Inclusion in Canoga Park"

- Presenter Dr. Miguel Gallardo

A couple of quick notes from the presentation:

- We hope to lay a foundation for the council moving forward.
- When talking about diversity there is always a range of different responses.
- The goal is always to help us to remember how connected we are to one another. We have forgotten that we need one another for our survival; let's figure out how to get back there.
- How can we make different decisions moving forward and affirm humanity?
- Equality might be the end goal but equity is how we get there.

Motion passes

Discussion around motion: - Ron suggests Standing rules needed to better define the role of GECO; Dr. Bryant recommends there multiple people at the table to develop the process and to be part of the GECO Committee. Jessica Gonzalez stated that there is currently a diligent vetting process and described some of it that does happen through exec/budget committees. Nauman suggested that a good practice is to continue the current process until a new process is created.

WC 2035 PLAN

Warner Center 2035 Plan

- Blueprint for a Mixed-Use Regional Center
 - *Creation of a framework of transit, pedestrian and bicycle systems that provides alternatives to automobile use.*
 - *Incentivize and distribute land uses to enable a variety of economic, workplace, residential, recreational and civic activities.*

Bringing Business to Warner Center

The WC 2035 Plan has created a housing boom, now it is time for business to follow.

How can we make WC a place where new/growing businesses want to locate?

Unlocking Warner Center's potential, and history as an innovation hub, to create a center for transportation and technology in the region.

Connecting Warner Center – RFI Outcomes

March 2021

About Urban Movement Labs

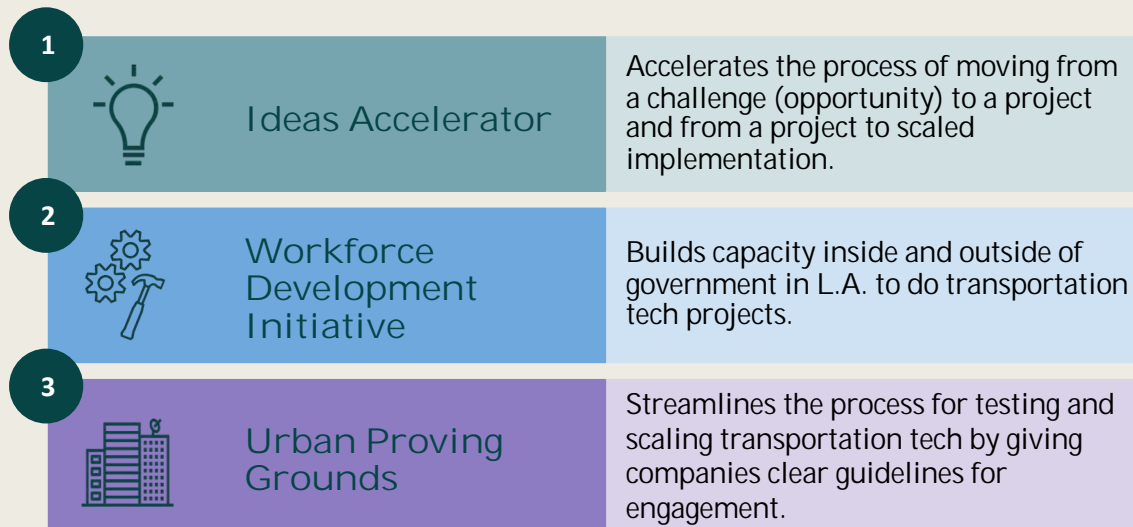

A first-of-its-kind incubator linking government, businesses, and the community to design and deploy transportation technology solutions in real urban conditions.

Founding Partners

Three Pillars

Connecting Warner Center

Connecting Warner Center is a collaboration among Mayor's Office, City Council District 3, LADOT, Warner Center Association, and Urban Movement Labs

Goals of the Collaboration

- Test 1-3 mobility solutions in Warner Center, starting in September 2020
- Focus on solutions that:
 - Reduce personally owned vehicle use (and therefore traffic)
 - Increase connectivity in and around Warner Center for people and freight

Responses to WC RFI

27 responses received from microtransit and carshare to goods movement and urban aerial mobility.

Evaluation metrics included:

- Company experience
- Alignment with City goals
- Alignment with Warner Connects goals
- Pilot project (funding, feasibility, etc.)
- Data sharing
- Innovation

Our Collaborators

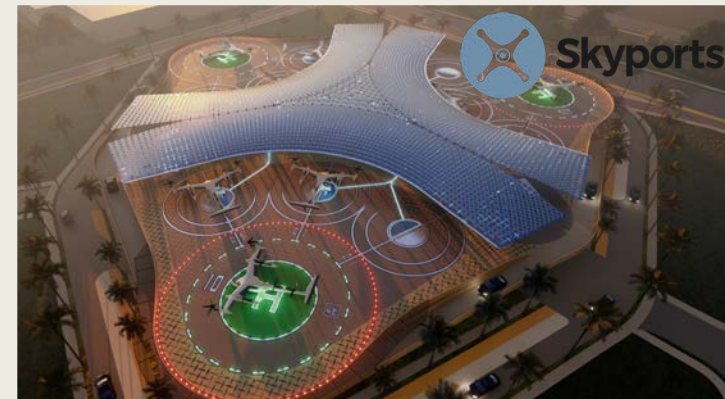

Kiwibot's facilitate local deliveries and can be used to collect information about infrastructure!

Oonee's Minipod brings a storage solution for bicycles and shared micro-mobility devices.

Circuit provides local on-demand services using an electric fleet of shuttles.

Skyports is a leading designer of vertiports to support urban air mobility in the future.

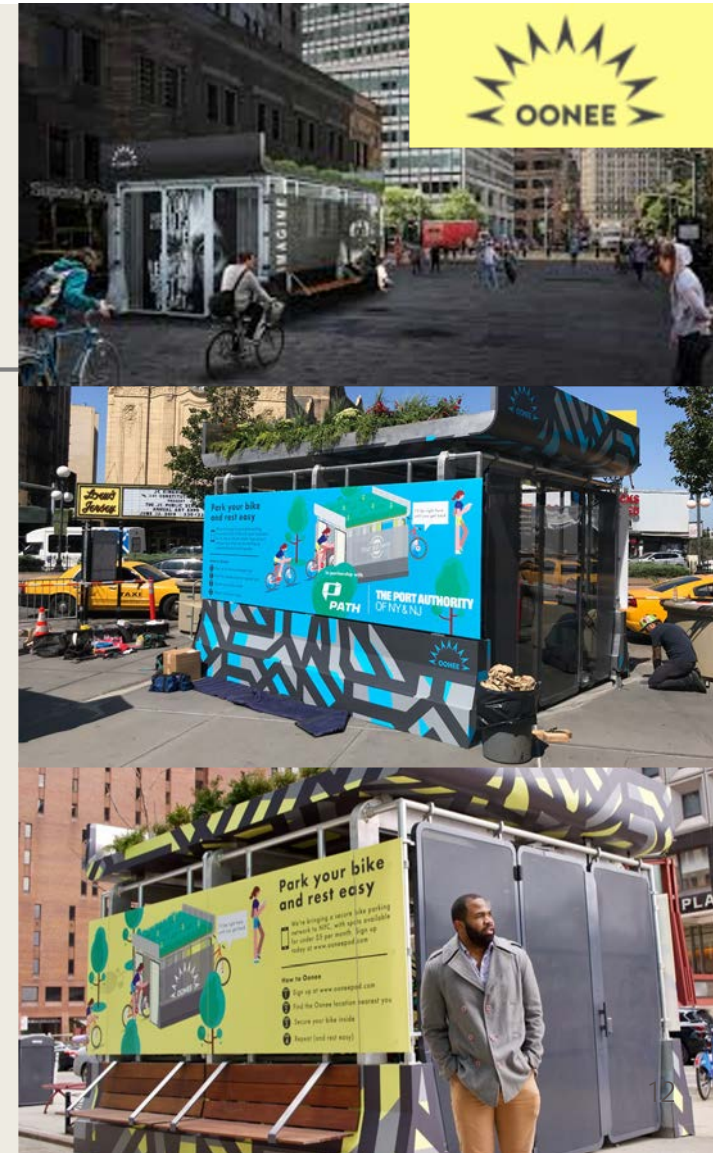

Kiwibot

- Operates primarily on sidewalks at 4 mph maximum operating speed
- Devices are semi-autonomous; remotely controlled by teleoperators
 - Initial service will have a human escort for outreach
- Device is 20 x 17 x 20 inches
 - Features 3 obstacle detectors and 5 cameras (1 front, 2 sides, and 1 back)
 - Devices are equipped with visible flags
- Use Cases
 - Contactless delivery of food and goods
 - Sidewalk infrastructure data collection including, but not limited to: sidewalk maintenance, curb ramp availability, tree wells, sidewalk furniture, lighting.

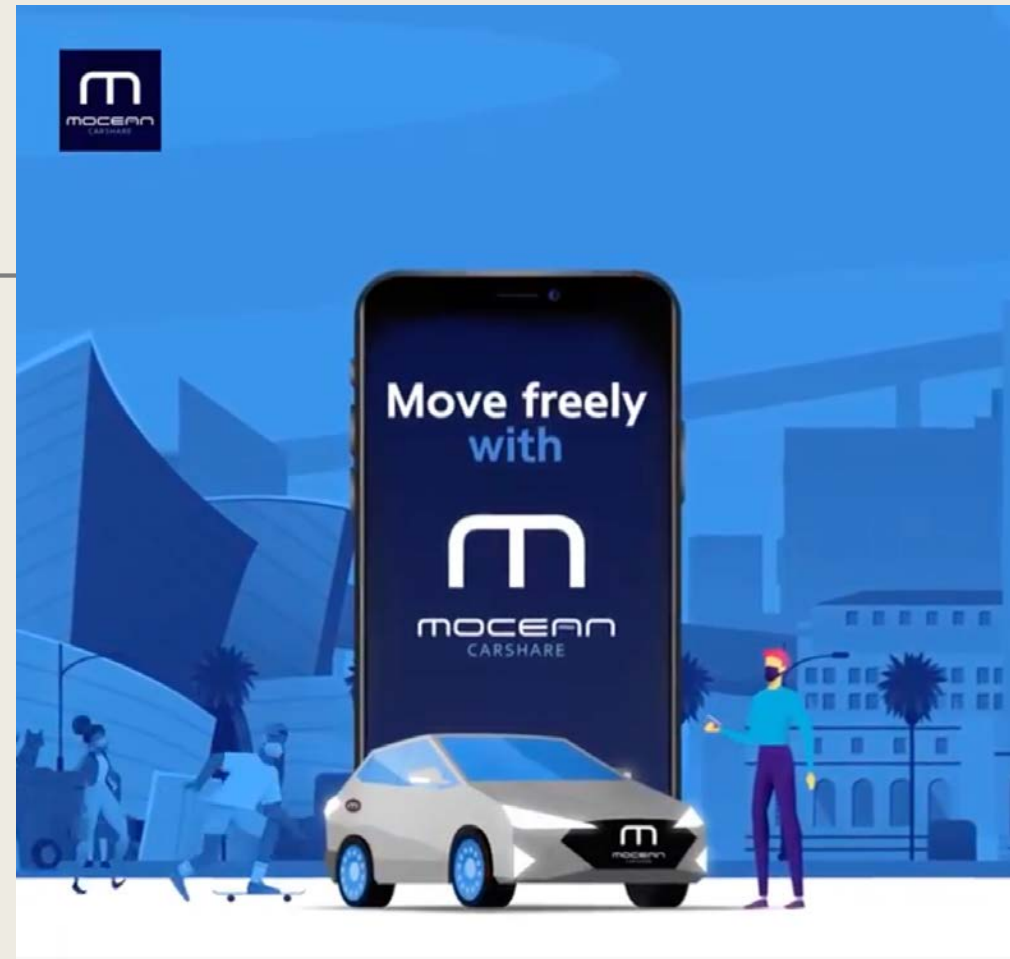

Oonee Pod

- Sited on either public or privately managed property
- Typical size pod is 13.5 x 15.5 feet
 - Dimensions and features are customizable – modular to fit local context
 - Assembly takes 1-2 days
 - New: Oonee Mini are about half the size!
- Self-charging capability with 3,300w solar panels
- Storage capacity for 22 bikes and scooters at a time
- Digital advertising screens
 - 5 x 15 feet or 10 x 10 feet options
- Use cases: Bicycle and micro-mobility (e-scooters, e-bikes, etc.) storage hub with advertising space

Mocean Car Share

- Car share service that operates with home zones – can be picked up and returned to a general area instead of a specific spot
- Membership based
- Currently operating in Downtown Los Angeles and Eagle Rock
- Expanding soon to Mar Vista and Warner Center
- Proactive community partner to identify programs to serve community members

The Warner Center Transportation Technology Innovation Zone (TTIZ)

- A motion introduced by Councilmember Bob Blumenfield on 11/10/2020, with support by Mayor Garcetti, designated Warner Center as a Transportation Technology Innovation Zone (TTIZ).

**RE: Funding Allocation Request of \$8 Million for the Establishment of Programs
Associated with the Warner Center Transportation Technology Innovation Zone Initiative.**

Dear Senator Stern,

The Canoga Park Neighborhood Council is proud to support the funding request put forth by the Warner Center Association (WCA), and in consultation with the City of Los Angeles Mayor, Eric Garcetti, and the Urban Movement Labs (UML). We support the request for consideration of a one-time, \$8 million funding allocation to initiate the Warner Center Transportation Technology Innovation Zone (TTIZ). Warner Center is a mixed-use Regional Center (as designated in the City of Los Angeles General Plan), encompasses well over one thousand acres, has over 14,900 residents and prior to the COVID-19 pandemic housed over 44,000 jobs. Warner Center straddles portions of the Canoga Park and Woodland Hills communities in the Southwest San Fernando Valley, in the City of Los Angeles.

In November 2020, Los Angeles City Council, with Mayor Eric Garcetti, announced Warner Center's designation as Los Angeles' first ever Transportation Technology Innovation Zone. An area where innovators can test their transportation technology solutions in the heart of a bustling mixed-use community and locate their businesses in the San Fernando Valley's premier regional center.

Funding to jump start the implementation of the Warner Center TTIZ will be a key element to recovery from the COVID-19 pandemic which has so severely impacted our community. The \$8 million being sought will fund four technology and transportation enhancements that will produce jobs and position Warner Center, the San Fernando Valley's most important housing and jobs rich regional hub, as a forward looking center for transportation technologies. This will also benefit all of the adjacent communities, including Canoga Park, as it will bring more jobs and housing to our beloved valley. To that end, we support the request for funding to implement a public WIFI program, to start a transportation technology accelerator, to provide seed money for innovative transportation solutions to provide services in Warner Center, and to study the existing infrastructure to determine what additional infrastructure is necessary to accommodate next generation transportation technologies such as Autonomous Vehicles.

These four programs represent the first steps towards helping our community build a strong foundation for the future, and we are pleased to support this important Project. Please feel free to reach me at XXXXXX if you would like to discuss this matter further or if I might be able to address any questions.

Sincerely,
